GROWING THE ECONOMY AND STANDING UP FOR HARD-WORKING CENTRAL FLORIDIANS SO MORE FAMILIES CAN GET AHEAD

Investing in Workers and Small Businesses

- ✓ **Spearheaded and helped pass the *Raise the Wage Act*** in the House to gradually increase the federal minimum wage to \$15 an hour. If enacted, it would be the first wage increase in over a decade and would lift millions of Americans out of poverty.
- ✓ **Passed the *BRIDGE Act*** in the House to strengthen re-employment services so more of Florida's unemployed workers can get back to work.
- ✓ **Passed bipartisan legislation to empower high-tech small businesses in central Florida** and make it easier for them to develop cutting-edge products that both grow the economy and advance our national security interests.

▼ Rep. Murphy meets with local job creators to discuss job training opportunities.

Supporting Florida's Working Families

- ✓ **Introduced the *Promoting Affordable Childcare for Everyone Act***, bipartisan legislation to make child care services more affordable and put money back in the pockets of hard-working families.
- ✓ **Supports a national paid family leave policy** that includes time off for new parents so they can welcome their child without worrying about losing their livelihoods.

Growing Our Local Economy

- ✓ **Secured \$25.5 million for infrastructure improvements at the Orlando Sanford International Airport (SFB)**, helping boost tourism, increase economic development, and create more and better-paying jobs in our region.
- ✓ **Urged House leadership to pass an infrastructure measure** that would make much-needed investments in transportation projects in the Orlando area that fuel central Florida's economic growth, like the SunRail system, Orlando International Airport (MCO), and I-4.
- ✓ **Announced nearly \$2 million to help *Lynx Orlando*** purchase more zero-emission buses to improve public transit and protect the environment.

▼ Rep. Murphy talks with officials at the Orlando Sanford International Airport to discuss infrastructure upgrades.
