CONGRESSMAN JERRY McNERNEY'S

# IDEAS FOR MORE CALIFORNIA JOBS

Dear Friend,

My top priority in Congress is working to help make our region prosperous again by creating jobs. I've heard some of the best ideas yet for creating jobs from people here in California. From stopping jobs from being sent overseas to providing tax relief for small businesses, the most innovative ideas for getting our economy moving again come from right here at home, not Washington, D.C. We have shown that we possess the ingenuity and high-quality skills necessary to create manufacturing jobs right here at home.

So please keep your ideas coming. I encourage you to continue to reach out to me with your thoughts and concerns at the addresses and phone numbers listed here. I'm honored to represent you, and I will continue to fight to get our economy back on track.

Sincerely,

*Jerry McNerney*

#1

## Stop Sending American Jobs Overseas

In this economy, every job counts. Our tax code makes it too easy for companies to send jobs overseas. Congressman McNerney introduced the *Stop Outsourcing and Create American Jobs Act* to slam shut tax loopholes that make it easier for companies to ship jobs overseas. McNerney also opposed the Republican's budget that would have made the problem worse.

#2

## Cut Taxes for Small Businesses

Small businesses are the engine of our local economy. Congressman McNerney is committed to helping small businesses grow and succeed. That's why McNerney voted to deliver billions of dollars in tax cuts that are helping local small businesses get off the ground and expand.

#3

## Green Energy Jobs That Work

As a wind energy expert and engineer, Congressman McNerney wrote the *GREEN Act* to provide funding for cutting-edge job training programs. McNerney is taking a responsible approach to promote renewable energy technologies through education and training for the next generation of students and workers.

## Help Returning Veterans Find Jobs

It is our obligation to help our returning heroes put their skills to work in good-paying California jobs. Congressman McNerney's *Veterans Employment Promotion Act* is designed to do exactly that and just passed the House with overwhelming bipartisan support.
